

“Easton residents want new representation with fresh ideas. Someone who will focus energy and resources to all of Easton, not just downtown.”

Peter Melan
Easton Mayoral Candidate

I plan to solve old problems in Easton with new ideas.

The focus on big, unaffordable housing has created a parking shortage that is worsened by poor decision making.

My focus will be to change the way we think and help us fix many problems that we face as a community.

We've been catering to big developers who buy our property for pennies then force Easton residents to abandon their homes and community when they can't afford high rent.

I will lead our city with dignity and represent everyone regardless of their income level.

Our city needs leadership that is inclusive of all people who call Easton their home. Instead of a select few, I want to empower all citizens to be engaged and contribute to the future of our city.

After 24 years of the same old thinking, ***the time for change is now!***

*The time for change is now
and I will focus on...*

- Conscious planning and development for a better community
- Improved connectivity between our neighborhoods
- Bringing civility back
- Transparency in our government
- Using reliable data to make smarter decisions for our future
- Enhancing citizen engagement
- Enacting mayoral term limits
- Advocating for all residents
- Attracting more diverse businesses
